

#Keep IT Cash UK

EIGHT Good Reasons

Why Access to Cash Should be Protected:

- 01 Cash can be used if there is a power cut or the internet fails ; all card machines rely on a network signal.**
- 02 Save local business money by eliminating card fees.**
- 03 Cash works if the card machine malfunctions.**
- 04 Cash can be quickly and easily handed over to family and friends: e.g. for gifts, birthdays or funerals.**
- 05 Cash makes it easier to keep track of what you are spending and help you budget.**
- 06 Cash works if you forget your card pin**
- 07 Cash helps the elderly, vulnerable, those with mental health issues and the homeless buy essential goods and services.**
- 08 Cash ensures financial privacy: banks, big business, government and other parties cannot see what you buy or sell - your spending profile can not be sold off to advertising companies.**

If we stop using cash, it will be gone forever.

We need to keep cash in circulation.

Please help support your local businesses
