

# #Keep Cash UK

## SEVEN Good Reasons Why Access to Cash Should be Protected

- 01** Unlike digital currency, cash can be used in the absence of electricity or a network signal.
- 02** Cash can be quickly and easily handed over to family and friends.
- 03** Cash ensures financial privacy: banks, big business, government and other parties cannot see /track what you buy or sell.
- 04** In a cashless society, were the government to close your bank account, you would not have access to money to buy anything, including food.
- 05** Cash makes it easier to keep track of what you are spending and budget.
- 06** A cashless society would give banks a free hand to charge negative interest rates with no escape.
- 07** A programmable digital currency could determine what you buy and where.

**If we stop using cash, it will be gone forever.**

**We need to keep control and keep cash.**
